How the Money Goes. How goes the money?—Well I'm sure it len's hard to tell; It goes for reof sad water rates, For bread and butter, coal and grates Rats, caps and carpets, hoops and he And that's the way the money goes !

How goes the money?—Nay,
Don't every body know the way;
It goes for bonuss, coate and capes,
Silks, satins, moslins, velvets, crapes,
Shawis, ribbons, furs and furbelows—
And that's the way the money goes!

How goes the money?—Sure I wish the way were something fewer? It goes for wages, taxes, debts, It goes for presents, goes for bets, For paints, rokkans, and kvu ps sous, And that's the way the money goes? How goes the money?-Now

I've scarce begun to mention how; It goes for laces, feathers, rings, Teys, dolls, and other baby things, Whips, whistles, bells and bows And that's the, way the money goes I How goes the money I.—Come,
I know it didn't go for rum:
It goes for schools and Sabbath chimes,
It goes for charity sometimes,
For missions and such things as those,
And that's the way the money goes i

How goes the money !—There, I'm out of patience, I declare, It goes for plays, and diamond plus, For public sime and private sime. For hollow shame and silly shows— And that's the way the money goes !

A very large assemblage—fully as large as that which met Mr. Corwin in this place greated Judge Ranney on Wednesday

The speech was all that the most sanguine expected from the great ability of our candidate for Governor. The leading issues of the day, State and National, were discussed

with consummate shillty.

He first discussed the financial affairs of
the State. He showed the utter fatuity of
the man or the party who would discard the the man or the party who would discard the Democratic sub-treasury law, and re adopt the rotten system which enabled Bliss, and Breslin, and Gibson, to defrand the people of nearly a million of their money.

The alavery question was nort discussed. He showed that the Democratic party occupied precisely the ground on the vexed question which both Whige and Democrats stood upon in 1852. He read from Mr. Clay, and from the Compromise Measures, and from

from the Compromise Measures, and from both platforms, in support of his position. The pretense, the imposture of the Repub-lican leaders, that they are the successors of

the Whig party, was exposed in the most conclusive style, and ridiculed in the merciless manner which it merits.

The troubles at Oberlin and Wellington, which resulted in the imprisanment of the Saints, the decapitation of Swan, and the nomination of Gholson, were fully and ably considered.

considered This meager account may afford to those who were not present, an idea of the general scope of Judge Ranney's speech; but all ought to have heard it. He spoke without coarseness or abuse. It was the calm, earnest, patriotic discourse of an enlightened and eloquent statesman.—[Logan Gazette, Sept. 10th.

THE AUBORA BOREALIS AT HAVANA, CUBA -The New Orleans Picayune says:

But twice before have the Northern lights been seen in Havans within the remember brance of the oldest inhabitants; the first, November 14, 1789, the second, November 18, 1848—hoth in the same month, a curl-ous fact which has been duly noted by the wondering islanders. It is likewise remark-ed as curious facts, that the Aurora of 1789 was followed two years after by a terrible burriesne, while that of 1848 was, by precisely the same number of years, preceded by one. It has been thought worthy of no-tice by one of our cotemporaries that hail, in considerable quantities, fell in various parts of the island in the early part of the late month of August.

Fremont in Luck.—Silver ore of the most extraordinary richness, has recently been found on the Mariposa Grant. It is nearly all pure silver, being but slightly mixed with copper. We learn from another course that this silver ore alluded to, contains ninety per cent of silver, and was found forty fest below the surface. The mine is on Col. Fremont's tract. This gentleman will have in sixty days on Mercer river seventy-two swamps at work with plenty of permanent water power, and capacity to work one hundred tons of ore a day, worth from twenty to thirty dollars per ton.

he miss can in violent attacks of this baleful distemper. This "Corn" expels the thins matic poison of Preven any Adve from the system, and prevents the development of the disease, if taken on the flast approach of its premocitory symptom. It is not celly the bear romedy over jet discovered for this rinas of complaints, but also the chapter. The large questiony we supply for a dellar benigs it within the reach of every body; and in biliness districts, where Frank and accurate prevails, every body should have it, and use it feely, both for error and protection. It is keeped districts within the reach of all—the poor as well as the rich. A great superiority of this reneady over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinhan or mineral, consequently it produces no quinism or other truncing of the constitution. Those cured by it are left as healthy as if they had never had the discover and a few parts and accurate the constitution.

Pever and Agen is not alone the consequence of the palesanatic poison. A great variety of disorders arise from its irritation, among which an Neuralgia, Bheamatism, Gout, Beadache, Bind ness, Toothacke, Earache, Catarrh, Asthma Palpitation, Fainful Affection of the Spices Hystorice, Pain in the Bowele, Colle, Parilysis, and Devaugement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Curn" expets the poison from the blood, and cosmole protection to humilpravis, and persons travelling or temporarily residing in the malarious districts. If taken occasionally, or daily, while exposed to the infection, that will be exceeded from the system, and cannot accumulate in sufficient quantity to Typen Into theses. Hence it is even more valuable for protection that entre, and few will themselves of the protection this remedy affords.
